

“B” Connectors, Plain (unfilled)

ELK-9002

The ELK-900-2 “Yellow Jackets” premium quality “B” connectors are manufactured from the finest materials. They feature insulation piercing internal teeth, soft metal alloy (easy to squeeze) crimp, and a durable protective outer covering. These wire splicers have been used in the telecommunications industry for many years. They provide a solid dependable splice in wires ranging from 22 to 26 AWG. The ELK-900-2 package contains 2 zip lock bags of 250 connectors together with a reusable poly storage box.
